Built | From steel. To last. To work.

TSE Forge is a purpose-built replacement chamber designed for real-world service conditions. Built for consistent performance and dependable durability. Backed by the same quality standards behind Omni and UltraLife products.

Approved for aftermarket replacement demand and intermodal applications.

- All-steel brake chamber
- Center-sealed assembly design
- Pre-tempered main spring
- Patented Bushing Assembly
- Self-lubricating center seal
- Available in Drum and Disc Brake Applications

Ideal Replacement Solution

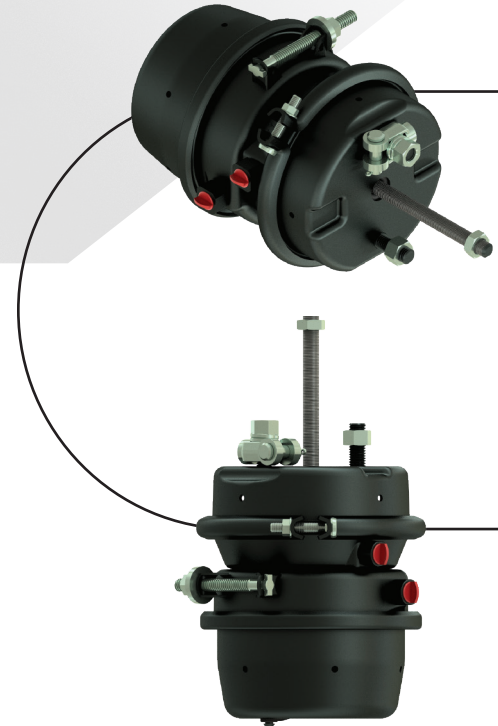

- Purpose-built for repair and service by reducing comebacks and unplanned downtime.
- Supports consistent outcomes across mixed fleets and varied service conditions.

Straightforward Installation

- Familiar design and consistent fit support confident installs at the shop.

Durable By Design

- Built to withstand corrosion exposure and harsh service conditions over time.
