More Parking Power | Smaller Package. Lower Costs.

TSE HOT™ is a patented high-output spring brake chamber engineered to deliver greater parking brake force in a smaller, lighter package. Designed for demanding commercial vehicle applications, HOT provides an efficient alternative to piston brake chambers while delivering dependable performance and long service life.

Feature Highlights

- Patented high-output design
- Greater parking brake force
- Smaller, lighter package
- Full immersion e-coat protection
- Available for air disc and drum brake applications

High Output Performance

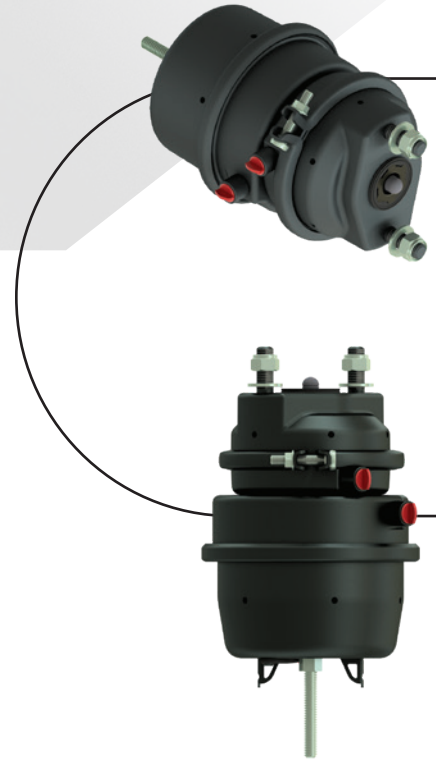

- Patented HOT technology delivers greater parking brake force than conventional double-diaphragm brake chambers, providing dependable holding power in demanding applications.

Compact By Design

- A smaller, lighter housing provides installation flexibility while delivering the performance traditionally associated with larger or piston brake chambers.

Proven Durability

- Premium internal components and full immersion e-coating help protect against corrosion and extend service life in demanding operating environments.

Part Number	Category	Description	Caged
1616HTLD2-3627	High Output Technology (HOT) Air Disc Brake	For 1616 Piston Or 1624 Double Diaphragm	Y
1816HTND2-3669	High Output Technology (HOT) Air Disc Brake	For 1816 Piston Or 1824 Double Diaphragm	Y
1824HTND2-3628	High Output Technology (HOT) Air Disc Brake	For 1824 Piston Or 1830 Double Diaphragm	Y
2016HTND2-3710	High Output Technology (HOT) Air Disc Brake	For 2016 Piston Or 2024 Double Diaphragm	Y
2024HTND2-3626	High Output Technology (HOT) Air Disc Brake	For 2024 Piston Or 2030 Double Diaphragm	Y
2424HTND2-3629	High Output Technology (HOT) Air Disc Brake	For 2424 Piston Or 2430 Double Diaphragm	Y
18HSCND2-4026	Service Chambers for Air Disc Brake	T-18 Disc 2.5" stroke	Y
20HSCND2-3630	Service Chambers for Air Disc Brake	T-20 Disc 2.5" stroke	Y
22HSCND2-3631	Service Chambers for Air Disc Brake	T-22 Disc 2.5" stroke	Y
24HSCND2-3632	Service Chambers for Air Disc Brake	T-24 Disc 2.5" stroke	Y
