Automatic Slack Adjusters

7 YEAR
WARRANTY

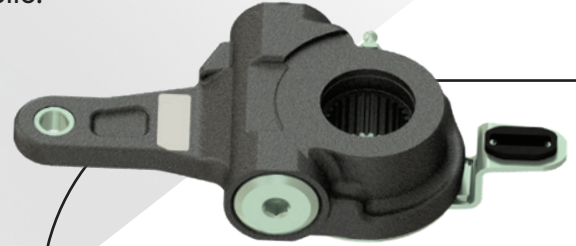

Simple To Install | Ready To Perform.

TSE SBO is a purpose-built automatic slack adjuster engineered for dependable brake performance in demanding commercial vehicle applications. Designed with clearance-sensing technology and a simple one-pin architecture, it delivers consistent brake adjustment, long service life, and straightforward installation. Backed by the same quality standards trusted across the TSE Brakes portfolio.

- Industry-leading 7-year warranty
- Water ingress protection
- Clearance-sensing adjustment mechanism
- One-pin installation design
- High-resistance e-coat finish

Simple Installation

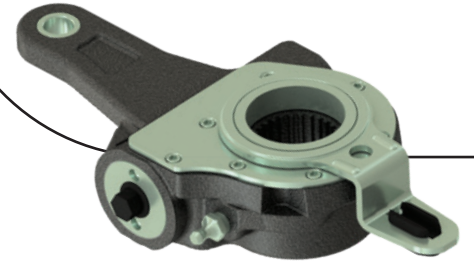

- One-pin architecture simplifies installation without templates while helping reduce installation time and service complexity.

Consistent Performance

- Clearance-sensing, off-stroke adjustment helps maintain proper brake clearance for consistent braking performance while reducing unnecessary adjustment during demanding operating conditions.

Durable By Design

- Heavy-duty construction, corrosion protection, and pressure relief technology help extend service life in demanding operating environments.
