

Visible Performance

Indicator Slack Adjuster

7 YEAR
WARRANTY

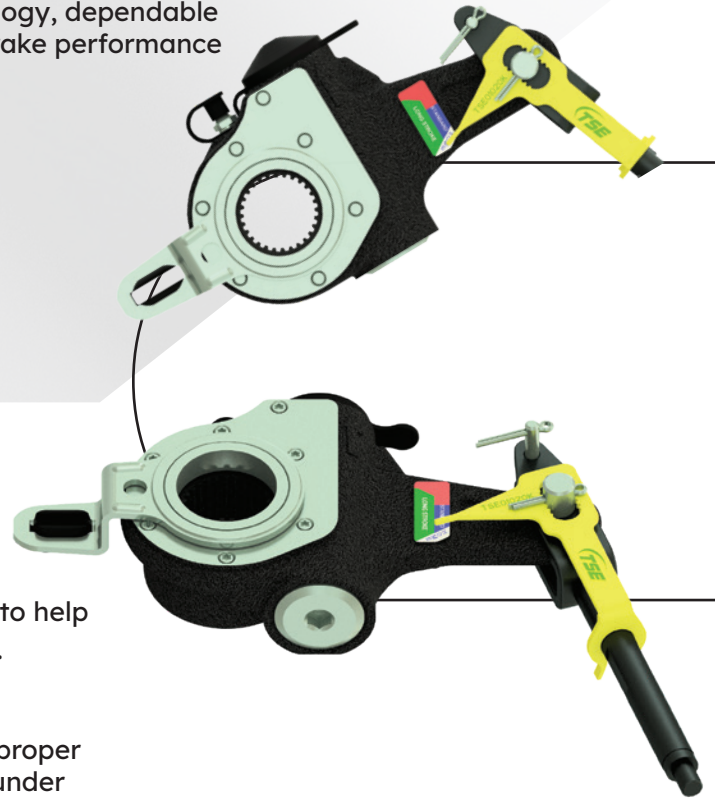

Visible performance

TSE SBX is a purpose-built automatic slack adjuster with an integrated visual stroke indicator designed to simplify brake inspections and support preventative maintenance. Engineered with clearance-sensing technology, dependable sealing, and durable construction to deliver consistent brake performance in demanding commercial vehicle applications.

- Industry-leading 7-year warranty
- OEM standard design
- Rubber cap for improved sealing protection
- Eliminates risk of over greasing
- Integrated visual stroke indicator
- Clearance-sensing adjustment mechanism
- One-pin installation design

Faster Brake Inspections

- Built-in stroke indicator provides a quick visual reference to help simplify brake inspections and preventative maintenance.

Reliable Brake Performance

- Clearance-sensing, off-stroke adjustment helps maintain proper brake clearance while reducing unnecessary adjustment under demanding operating conditions.

Durable By Design

- Heavy-duty construction, corrosion protection, and pressure relief technology help extend service life in demanding fleet environments.
