

Indicator Slack Adjuster

indicator™ slack adjuster

TSE BRAKES BRAKE ADJUSTER WITH STROKE INDICATOR

As fleets strive to ensure their equipment is operating properly and safely this product will assist drivers and technicians with regards to meeting and exceeding DOT requirements. In addition, the single pin design eliminates the need for templates and assists with reducing errors in installation.

Product enhancements

- Improved Bushing for more durability and longer life
- Integral Pressure Relief Valve to reduce chances of over-pressurization of seals
- Clutch Adjustment Assembly with optimal extra fine adjustments
- Single Pin Design for ease of first fit installation or replacement
- Easy to use visual stroke indicator
- Water egress caps over torque nut and grease fitting
