omnibrake® TSE-REX

TSE OMNIBRAKE REX - RAPID EXCHANGE RODS

All the benefits and features of the tired and tested OmniBrake which include

- Better design
- Leading corrosion protection
- VCT – Variable Clocking Technology
- Standard 4 year warranty

Plus THE TSE OMNIBRAKE REX CHARACTERISTICS

Installation

- Simple work instructions (60% less than competitors)
- Less labor time to install (Testing results confirm up to 75% less time)
- Universal fit means common service base installation
- Less chance to do it wrong (Highest installation failure mode eliminated)

VCT – Variable Clocking Technology

- Less sealing responsibility (Diaphragm comes factory sealed)
- No “clamped” air connection to worry about when setting port locations
- 180° clock rotation eliminates need for stocking both left and right hand units

Reduced inventory with better application coverage

- Two part numbers handle most applications:
- Less parts to buy and store on shelf

Patented design

- U.S. Patent No. 9,050,958
- Patented design eliminates potential failure compared to conventional designs
